

Human Health Test Menu & Pricing

Form HH134; Revised 9-1-2024

We offer clinical testing for hard-to-detect vector-borne pathogens.

Full payment is required at time of testing.

We are out-of-network with all insurance providers.

Galaxy Diagnostics can provide a superbill upon request.

DUAL DETECT (Lyme + *Bartonella*)

Antigen and Antibody Testing

- 1 Lyme *Borrelia* Nanotrap® + *Bartonella* IFA Serology.....\$650**
Confirms active *Borrelia*. Identifies exposure to *B. henselae*, *B. quintana*, *B. vinsonii berkhoffii*, & *B. koehlerae*.
Lyme *Borrelia* Nanotrap® Antigen Test | *Bartonella* 4-Species IFA Serology, IgG ●●

CPT (PLA): 0316U | 86317-59 x4

BORRELIOSIS (Lyme Disease)

Antigen Testing

- 2 Lyme *Borrelia* Nanotrap®\$325**
Confirms active *Borrelia*.
Lyme *Borrelia* Nanotrap® Antigen Test. ●

CPT (PLA): 0316U

BARTONELLOSIS (Cat Scratch Disease)

DNA, Culture, and/or Antibody Testing

- 3 4-Species IFA Serology.....\$450**
Identifies exposure to *B. henselae*, *B. quintana*, *B. vinsonii berkhoffii*, & *B. koehlerae*.
Bartonella 4-Species IFA Serology, IgG. ●

CPT: 86317-59 x4

Digital ePCR™

Confirms active *Bartonella* with digital PCR and culture enrichment.

Bartonella Digital ePCR™ ● | *Bartonella* Digital ePCR™ X 3 ●●●

- 4 1 Day Draw.....\$825**

- 5 3 Day Draw.....\$1,675**

*3 Day Draw: Collect 3 separate draws (1 draw per day) within a 5-8 day period. **Save \$800**

CPT (PLA): 0302U

CPT (PLA): 0302U x3

Digital ePCR™ + IFA Serology

Confirms active *Bartonella* with digital PCR and culture enrichment. Identifies exposure to *B. henselae*, *B. quintana*, *B. vinsonii berkhoffii*, & *B. koehlerae*.

Bartonella 4-Species IFA Serology, IgG ● | *Bartonella* Digital ePCR™ ● | *Bartonella* Digital ePCR™ X 3 ●●● **Save \$280-\$1,150**

- 6 1 Day Draw+ IFA Serology.....\$995**

- 7 3 Day Draw + IFA Serology.....\$1,775**

*3 Day Draw: Collect 3 separate draws (1 draw per day) within a 5-8 day period.

CPT (PLA): 0302U | 86317-59 x4

CPT (PLA): 0302U x3 | 86317-59 x4

SAMPLE KEY:

- 3 mL SERUM (SST) – **MUST BE SPUN**
- 3 mL WHOLE BLOOD (LTT)
- 50 mL URINE

Collection instructions included in kit and on our website.

Proprietary Laboratory Analyses (PLA) codes are unique CPT codes for Galaxy Diagnostics, and are currently not eligible for Medicare reimbursement.

Insurance reimbursement for testing at Galaxy Diagnostics will depend on the specific policies of your insurance carrier.
