*Self-pay only tests have not been assigned specific procedure coding due to their use of novel and unique sample enrichment technologies. Non-specific coding may lead to reimbursement claims being rejected.

Pre-payment information is required for all uninsured and privately insured patients. Galaxy will file a complimentary out-of-network reimbursement claim for eligible testing. Pre-payment is not required for Medicare patients, unless a “self-pay only” test is ordered. An Advanced Beneficiary Notice of Noncoverage (ABN) must also be completed. Informed consent from the patient is required for all research-use only (RUO) tests. The research consent form is included in the specimen collection kit.
